Dear Residents-

On behalf of City Council, I wish you a Happy New Year! This year's calendar highlights a couple of the changes that are taking place in our community. Two of those changes include the demolition of the 1939 portion of City Hall and the renovation of the 1979 addition, and the construction of a new building that will become Fire Station 2.

City Hall was in need of important updates to provide a safe, efficient, and accessible working environment for employees and the public. As City Council, staff, and our architectural team evaluated options, it became clear that renovating the existing structure would require millions of dollars in investment—yet still fall short of meeting today's standards for safety, accessibility, and functionality.

After careful consideration, the alternative to construct a new facility offered a more cost-effective solution. This approach not only preserves taxpayer dollars but also ensures a modern, fully handicap-accessible City Hall designed to meet the needs of both our employees and the community for years to come.

Similarly, City Council has long recognized the need to replace the current Fire Station 2. The existing facility is undersized, outdated, and no longer meets the operational demands of a modern fire department. With limited space for personnel, apparatus, and equipment, the station has struggled to keep pace with the growth and industrial development occurring in the south and west portions of Sidney.

To ensure the Fire Department can continue to respond effectively and efficiently, the City previously purchased property adjacent to existing City-owned land with the intent of constructing a new, larger Station 2. The new facility will provide the space, technology, and resources necessary to support current operations, accommodate future growth, and improve response times. Most importantly, it will enhance the safety of our firefighters and the residents they serve.

In addition, we have actively worked to increase housing opportunities. At year's end, we have approximately 1,600 homes in various stages of construction, some already sold or leased. Working with developers, we have supported a mix of housing types and price points that serve every stage of life and income level, from affordable and workforce housing to middle-class and higher-end residences.

Homes are where jobs go at night, and it has been our hope to attract some of the many commuters who come into Sidney every day to work – according to the US Department of Labor, more than 12,700 each day – to become residents. Since its earliest days, Sidney has been a manufacturing center. For some years, we have had the distinction of having more manufacturing jobs per capita than any other municipality in Ohio.

In the words of President Kennedy, "Change is the law of life, and those who look only to the past or present are certain to miss the future."

As I've often said, I continue to believe that Sidney's best days lie ahead. But it will take each of you doing your part to make the community an even better place to live, work, worship, play and raise the next generations of Sidney residents.

Sincerely,

Mike Barhorst  
Mayor

No. R-3

FIRE STATION IMPROVEMENT LIMITED TAX  
GENERAL OBLIGATION BOND, SERIES 2025

| <u>Interest Rate</u> | <u>Maturity Date</u> | <u>Date of Original Issue</u> |
|----------------------|----------------------|-------------------------------|
| 4.000%               | December 1, 2028     | October 7, 2025               |

REGISTERED OWNER: CEDE & CO.

PRINCIPAL AMOUNT: ONE HUNDRED TWENTY THOUSAND DOLLARS

KNOW ALL MEN BY THESE PRESENTS, that the City of Sidney, Ohio (the "Issuer"), acknowledges itself to owe and for value received to pay in the manner hereinafter provided, to the registered owner, or his or her assigns, hereinafter identified, upon presentation and surrender of this bond, the principal amount of said bond, with interest thereon, as provided above on the maturity date specified above, and to pay interest on said bond, as provided above on June 1 and December 1 of each year, commencing on June 1, 2026.

## MUNICIPAL BOND FINANCING

In 2025, the city issued \$6.6 million in General Obligation (GO) bonds for the construction of a replacement to Fire Station 2. In addition, \$18.8 million in Bond Anticipation Notes (BAN) for the construction/renovation of City Hall and \$2.2 million for the purchase of two fire trucks were also issued. The BANs will eventually be converted to GO bonds.

By law, Ohio cities may issue obligations to finance the cost of acquisition or construction of any asset or improvement which has an estimated useful life of at least five years (a "permanent improvement"). Think of it as being similar to getting a vehicle loan or taking out a mortgage for high-dollar personal purchases.

The Ohio Constitution as well as the Internal Revenue Service (IRS) and the city's Charter and internal Financial Policies determine whether or not significant debt capacity is available to permit issuing bonds. With the recent debt issuance, the city is within all required debt limitations.

In late 2025, a ratings review with Standard and Poor's Global Ratings (S&P) was completed as a part of the debt issuance process. S&P assigned its 'SP-1+' short-term rating to the City of Sidney, Ohio's approximately \$21.22 million series 2025 various-purpose limited-tax GO BANs. At the same time, S&P assigned its 'AA' long-term rating on the city's \$6.6 million series 2025 fire station improvement limited-tax GO bonds.

## A SHORT HISTORY OF THE FORMER CITY HALL

In 1938, City Council considered several options to house all city departments under one roof and eventually decided on the location at the corner of West Avenue and Poplar Street. Bonds were issued and the building was started in 1939 as a part of the Works Progress Act (WPA). All city offices were operational in the building by January 1940.

By the mid 1950's there was already a need for building improvements to accommodate a growing police department. In late 1971, the city purchased land adjacent to the 1939 building for an expansion project that began in 1974 and was completed in 1975. This expansion included a new police department, an additional fire department bay and administrative offices.

In 2001, there were more changes to the building when Sidney Municipal Court relocated to the Monumental Building. The Police Department then vacated the building in 2005, which led to additional renovations in 2007.

The combined 1939/1975 facility was neither conducive to modern work practices, nor convenient for public access. Safety and security issues had also been identified over the last several decades. Various planning studies had been completed since the 2007 renovations which eventually led to the project now underway.

In mid-2025, city staff transitioned to a temporary modular office in the middle of Poplar Street as work commenced on the replacement to City Hall.

Completion of the new facility is expected in early 2027.

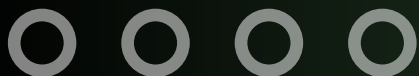

## REPLACEMENT OF FIRE STATION 2

In March 2021, Sidney staff members started work with design professionals on a Feasibility Study to determine whether a renovation of the current facility, located on Vandemark Road, or a replacement was the most appropriate and cost-effective. The cost analysis of both options determined that replacement of the existing facility made the best use of city funds.

In October 2022, the city purchased property on Campbell Road for the new facility. This location was desirable due to its close proximity to the existing Vandemark Road campus of city facilities. Facility design work was finalized in 2024 and a ground breaking was held in May 2025.

The new station is designed to meet U.S. Fire Administration and FEMA recommendations to minimize carcinogen cross contamination, provide for adequate office and living quarters and have the appropriate sized apparatus bays for today's fire engines and EMS vehicles.

Construction is expected to be completed in mid-2026.
