1.) Background

The Law – Ohio Revised Code Section 4929.26 (A1) states the following:

“The legislative authority of a municipal corporation may adopt an ordinance, or the board of township trustees of a township or the board of county commissioners of a county may adopt a resolution, under which, in accordance with this section and except as otherwise provided in division (A)(2) of this section, the legislative authority or board may aggregate automatically, subject to the opt-out requirements of division (D) of this section, competitive retail natural gas service for the retail natural gas loads that are located, respectively, within the municipal corporation, township, or unincorporated area of the county and for which there is a choice of supplier of that service as a result of revised schedules approved under division (C) of section 4929.29 of the Revised Code...”

Source: <http://codes.ohio.gov/orc/4929.26>

ORC Section 4929.26 (C) requires that the corporate authorities or county board shall develop a plan of operation and governance for the aggregation program. Two public meetings shall be held for public input, questions and comments regarding the Plan of Operation and Governance. Notice of such meeting is required. Before the first hearing, notice shall be published once a week for two consecutive weeks in a newspaper of general circulation in the jurisdiction. The notice shall summarize the plan and state the date, time, and location of each hearing.

Any load aggregation plan established shall provide for the following:

- Universal access to all applicable residential and small business (non-mercantile; under 500 Mcf annual load) customers and equitable treatment of applicable residential and small business customers.
- Describe demand management and energy efficiency services to be provided to each class of customers.
- Meet any requirements established by law concerning aggregated service.

If the program is approved as an opt-out program for residential and small commercial retail customers, then:

- Within 60 days after receiving the bids, the corporate authorities or county board shall allow residential and small business customers to commit to the terms and conditions of a bid that has been selected by the corporate authorities or county board.
- If (A) the corporate authorities or county board award proposed agreements for the purchase of natural gas and other related services and (B) an agreement is reached between the corporate authorities or county board for those services, then customers committed to the terms and conditions, shall be committed to the agreement.
- If the corporate authorities or county board operate as an opt-out program for residential and small business retail customers, then it shall be the duty of the aggregated entity to fully inform those customers in advance that they have the right to opt out of the aggregation program.

- On 6/22/2015 and in accordance with the requirements of ORC 4929.26, the corporate authorities or county board approved a resolution allowing a referendum question to be placed on the November 3, 2015, ballot to operate an Aggregation Program as an “Opt-Out” program. Under the Opt-Out program, Vectren Energy Delivery of Ohio (VEDO) residential and small business retail natural gas customers in city/village/county’s jurisdiction are automatically included as participants in the Program unless they Opt-Out of the Program by providing written notice of their intention not to participate in the Municipal Aggregation buying group. On November 3, 2015, the electorate will be asked to allow the corporate authority or county board to arrange for the supply of natural gas on behalf of the residents and small businesses in the jurisdiction. Upon approval of the ballot question by the electorate, the corporate authority or county board will adopt the Plan of Operation and Governance as the rules for the implementation and operation of a municipal natural gas aggregation program. Upon approval of the Plan, the corporate authority or county board will file an application with the PUCO for certification as a Governmental Aggregator.
- The corporate authority or county board has retained Supernova Partners, LLC, Affordable Gas and Electric Company, LLC (“Consultant”) to assist with administering the Program, the Opt-Out process, managing the competitive bidding process, writing the Request for Proposal (“RFP”) to help the corporate authority or county board officials select the most suitable Retail Natural Gas Supplier (“Supplier”) and commodity product for participating residents and small businesses wanting to participate in the Program. Additionally, Consultant shall assist the corporate authority or county board in completing and filing all reporting and documentation for government aggregators as required by the PUCO.

2.) Municipal Opt-Out Aggregation

The purpose of municipal opt-out aggregation is to reduce the natural gas supply costs which the corporate authority or county board’s residents and small businesses pay for natural gas, taking advantage of certain economies of scale to negotiate favorable rates. The corporate authority or county board shall seek fixed natural gas prices for each eligible class of customers that may be lower than the comparable price available from the Local Distribution Company (“LDC”), in this case VEDO. Individual residential and small business retail consumers are unable to obtain significant price discounts since they lack the bargaining power, expertise and the economies of scale enjoyed by larger industrial consumers. The Program will band together numerous natural gas accounts, providing the benefits of economies of scale that work to benefit the smaller consumer.

As a governmental aggregator (“GA”), the corporate authority or county board does not own natural gas assets and will not purchase and resell natural gas, but represents consumer interests to set the terms for natural gas supply and service from competing Retail Natural Gas Suppliers licensed with the PUCO. Through a competitive bid process operated and managed by Consultant, the corporate authority or county board will enter into a contract with a Supplier for full-requirements retail natural gas supply service. The contract is expected to be for a fixed price for a specified term. The corporate authority or county board may contract with one or more Suppliers if necessary to meet the needs of participating residents and small businesses.

The corporate authority or county board will serve as governmental aggregator and in cooperation with Supernova Partners, LLC, Affordable Gas and Electric Company, LLC, will collect all residential and small business natural gas load within the corporate authority or county board's municipal boundaries and seek bids from qualified and PUCO licensed Retail Natural Gas Suppliers.

This Plan has been prepared by the corporate authority or county board officials in cooperation with Supernova Partners, LLC, Affordable Gas and Electric Company, LLC, the "Consultant", to provide an understanding of structure, governance, operations, management, and policies of the Program to be utilized for residents and small businesses participating in the Program.

3.) Eligible Customers

Eligible customers under the municipal natural gas aggregation program include LDC customers who are located within the municipality's geographical boundaries and are either:

- Residential customers receiving natural gas service from the LDC
- Non-mercantile small business retail customers consuming 500 Mcf or less annually on a calendar basis, receiving natural gas service from the LDC.

The corporate authority or county board will work with the winning Supplier to remove any customers determined to be ineligible due to one or more of the following:

- Customer is not located within the municipal territory limits;
- Customer appears on the PUCO's "do not aggregate" list.
- Customer has opted out of the aggregation.
- Customer is in an existing natural supply agreement with a supplier other than the current supplier of the governmental aggregation;
- Customer is both a distribution service customer and a mercantile customer on the date of commencement of service to the aggregated load, or the person becomes a distribution service customer after that date and also is a mercantile customer;
- Customer is supplied with commodity sales service as part of a retail natural gas load aggregation provided for pursuant to a rule or order adopted or issued by the commission under this chapter or Chapter 4905 of the ORC;
- Customer has a special arrangement with the natural gas utility;
- A mercantile customer that has not provided affirmative consent (opted-in) to join the aggregation;
- Customer is enrolled in percentage of income payment plan (PIPP).

Customers who are not eligible under the opt-out program, but may see a savings due to rates negotiated and secured, will be offered an opportunity to opt-in, if appropriate and allowed under ORC 4929.26.

The Retail Customer Identification information provided by the LDC will remain the property of the municipality, and Supplier will handle data in a manner consistent with the provisions of all relevant Federal and Ohio Law, PUCO regulations, etc.

The Supplier shall treat all customers equally and shall not deny service to any customer in the Program, or alter rates for different classes of customers unless authorized by Ohio State Law or administrative code.

4.) Opt-Out Process

Customers who wish not to be “automatically included” in the program will be allowed to Opt-out in accordance with ORC 4929.26 and 4901:1-28-04. An initial opt-out period will be held and residential and small business customers who choose to opt-out will remain on the LDC’s standard choice offer listed on the PUCO’s “Apples to Apples” website by utility as the “Standard Choice Offer”

<http://www.puco.ohio.gov/puco/index.cfm/apples-to-apples/>

After a service agreement with the selected supplier has been finalized, the corporate authority or county board will provide the eligible customer list to the selected supplier. The list will include any eligible residential, and small commercial accounts that will realize savings through the accepted bid price. During the Opt-Out notification period, the selected supplier will operate an Opt-In program for customers who are currently not eligible to participate in an Opt-out program, but may otherwise provide affirmative consent to join the aggregation pursuant to Ohio law and PUCO regulation. This will ensure the greatest amount of participation for all customers under the program.

Opt-Out Notices: A notice will be sent to all residential and small commercial accounts that are deemed eligible by the corporate authority or county board. See “Eligible Customer” section above. A sample of the notice is provided in Appendix A of this Plan. The contents of the notice will be printed on the corporate authority or county board’s municipal letterhead so as to avoid any confusion with other offers that may exist with other retail natural gas suppliers in the state. The Opt-Out notice will clearly notify the Resident and Small Business of the rates to be charged for natural gas and other terms of the contract with the selected supplier. The selected supplier will have thirty (30) days from the receipt of the eligible customer list to mail the opt-out notices to all eligible residences and small businesses included in the Program.

Distribution of Opt-Out Notices: The selected supplier will be required to pay for all production, printing, and mailing costs associated with the distribution of Opt-Out notices. The selected supplier and the corporate authority or county board will agree on the format of the Opt-Out notice prior to the mailing of any notices. The notices will be mailed from the selected supplier to the owner or occupant residing at the natural gas account mailing address shown on LDC’s customer list.

Opt-Out Period: After mailing the notices, there will be an Opt-Out Period of no fewer than 21 days. Customers not wishing to participate in the Program will have 21 days from the date postmarked on the

notice to postmark and return the Opt-Out notice to the selected supplier in order to satisfy the Opt-Out requirement.

Customer support during Opt-Out Period: The selected supplier will maintain a toll-free phone number and website explaining the steps for Opting-Out of the Program. If necessary, the selected supplier will provide bilingual or multilingual customer support to explain the Opt-Out procedure to non-English speaking residents. During this period and through the initial procurement term, the Consultant will provide supplemental customer support for any issues not satisfied by Supplier customer support.

Enrollment: Once the Opt-Out Period has passed, the selected supplier will not enroll those LDC customers Opting-Out of the Program. In the event that an eligible residential or small commercial account is inadvertently omitted from the Program, the selected supplier shall enroll that customer at the Program rate for the remaining term.

Opt-Out After Enrollment: Once enrolled in the Program, customers may Opt Out or cancel their service with the selected supplier at any time by directly notifying the selected supplier via a toll-free phone number that will be provided on the Opt-Out notice. In all such cases, the customer may do so without incurring any charges, penalties, or fees.

Early Cancellation Charges: There will be no charges for customers leaving the program after enrollment with the selected supplier has occurred.

Opt-Out Steps Overview:

1. The selected supplier and the corporate authority or county board will agree upon the format of the Opt-Out notice prior to mailing residential and small business customers.
2. The selected supplier will mail Opt-Out notices to all eligible customer service classes.
3. Recipients will have at least **twenty one (21)** days from the postmark on the notice to return notice to selected supplier if they want to be removed from the Program.
4. Recipients will be able to Opt-Out by returning an Opt-Out card via U.S. Mail to the selected supplier.
5. The supplier will offer a toll-free phone number and website to aid recipients with the notice and the Opt-Out procedure. Further support will be provided by the Consultant through a link on the website <http://www.AffordableElectricRates.com>.
6. Additionally, residential and small businesses that do not Opt-Out, per step 4 above, will receive written notification, called a "Letter of Rescission" or a "Switch Letter", from the LDC stating that they are about to be switched.
7. The Letter of Rescission will inform the participant that they have **seven (7)** days to rescind the contract by contacting the LDC. The selected Supplier will not enroll those accounts Opting-Out of Program.

No opt-out disclosure notices will be sent to potential customers of an aggregation prior to the prospective governmental aggregator being certified by the PUCO as a governmental aggregator by submitting the following completed form:

<http://www.puco.ohio.gov/emplibrary/files/SMED/crng/OhioNaturalGasGovernmentalAggregatorInstructionsandApplicationForm.pdf>

5.) Periodic Enrollment Updates

1. **Moving to the city, village or county from another municipality:** Residents and businesses that move into the city, village or county's jurisdiction will be automatically included in the Program. Consultant will periodically request updated account lists from the LDC and the winning supplier. Through a comparative scrubbing process, Consultant will then send a list of newly eligible, but currently not enrolled accounts to Supplier, whereupon Supplier will promptly send Opt-Out notices so that these account holders may be given the option to participate. These accounts will be given twenty-one (21) days from the postmark date on the notice to return the Opt-Out notice if they do not wish to participate in the Program.
2. **Moving within the city, village or county's jurisdiction:** Selected supplier shall continue service at the same rate and under the same terms and conditions for residents and small businesses that are in the Program, but move to a different premise within the city, village or county's jurisdiction prior to the expiration of the contract term. Customer will automatically receive a new opt-out notice. If such a notice is not received the customer will have the right to contact the selected supplier and or Consultant to obtain such a notice.

Any new accounts shall be able to enroll in the aggregation program under the same terms, conditions, and pricing as accounts that were initially enrolled during the initial opt-out period. However, newly enrolled accounts will only have the ability to participate in the ongoing aggregation program for the time remaining in the term of the agreement with the Supplier. Costs (for example for printing and mailing) associated with subsequent Opt-Out rounds will be paid in the same manner as for the initial Opt-Out round.

6.) Selected Supplier Responsibilities

The corporate authority or county board will use a competent entity as a Retail Natural Gas Supplier to perform and manage aggregation services for the Program. The selected supplier shall provide adequate, accurate, and understandable pricing, terms and conditions of service, including, but not limited to, no switching fees and the conditions under which Program participants may Opt-Out without penalty at any time.

Supplier must provide the corporate authority or county board and Consultant, upon request, an electronic file containing the Program participant's usage, charges for retail supply service and such other information reasonably requested by the corporate authority or county board or the Consultant.

Supplier shall create and maintain a secure database of all Program participants. The database will include the name, address, LDC account number or Service Delivery Identifier, and the supplier's account number of each active Program participant, and other pertinent information such as rate code, rider code (if applicable), most recent 12 months of usage and demand, and meter reading cycle. The database will be updated at least quarterly. Accordingly, the Supplier will develop and implement a program to accommodate participants who (i) leave the Program due to relocation, Opting-Out, etc.; (ii) decide to join the program; (iii) relocate anywhere within the corporate limits of the municipality; (iv) move into the municipality and elect to join the Program. **(See Appendix A of this Plan)**

Education: The selected supplier shall work with Consultant to develop and implement an educational program that generally explains the Program to all residential and small business customers.

Supplier will provide updates and disclosures mandated by Ohio law and applicable rules and regulations, and implement a process to allow any participant the opportunity to Opt-Out of the Program according to the terms of the Natural Gas Supply Agreement.

Customer Service: the selected supplier shall hire and maintain an adequate customer service staff and develop and administer a written customer service process that will accommodate participant inquiries and complaints about billing and answer questions regarding the Program in general. This process will include a description of how telephone inquiries will be handled, either internally or externally, how invoices will be prepared, how participants may remit payment, and how collection of delinquent accounts will be addressed. The supplier and the corporate authority or county board will enter into a separate customer service plan agreement or the terms shall be included in the Natural Gas Supply Agreement.

Any natural gas customer, including any participant in this Aggregation Program, may contact the Public Utilities Commission of Ohio (PUCO) for information, or to make a complaint against the Program, the SUPPLIER, or the LDC. The PUCO may be reached toll free at 1-800-686-7826 or for TTY (toll free) at 1-800-686-1570 from 8:00 a.m. to 5:00 p.m. weekdays, or at www.PUCO.ohio.gov .

Billing: LDC will provide a monthly billing statement to each Program participant which shall include Supplier charges. The Supplier will not charge any additional administrative fee(s).

Compliance Process: The Supplier shall develop internal controls and processes to ensure that the corporate authority or county board remains in good standing as a Governmental Aggregator and ensure that the Program complies with ORC 4929.26 and all applicable laws, rules and regulations, as they may be periodically amended. It will be the Supplier responsibility to deliver reports at the request of the municipality or Consultant in a timely manner that will include (i) the number of participants in the Program; (ii) a savings estimate or increase from the previous year's baseline; (iii) such other information reasonably requested by the municipality or Consultant; (iv) comparison of the participants'

charge for the supply of natural gas from one designated period to another identified by the municipality. The Supplier shall also develop a process to monitor, and shall promptly notify in writing, any changes or amendments to any laws, rules or regulations applicable to the Program.

Notification to LDC: The residential and small business customers in the corporate authority or county board that do not Opt-Out of the Aggregation Program will be enrolled automatically in the Program by the selected Supplier. Eligible residents and small businesses included in the Program will not be asked to take affirmative steps to be included in the aggregation group. To the extent that LDC requires notification of participation, the selected Supplier shall provide such notice to LDC. Periodically, the Supplier will inform LDC through electronic means, of any new members that it is enrolling into the Aggregation Group.

Customer Switching Fee: The selected Supplier shall be responsible for payment of any customer switching fees imposed by the incumbent LDC.

7.) Natural Gas Supplier Selection Criteria

Suppliers responding to the RFP will be measured on the basis of PUCO licensing and certification standards, price, program, marketing, experience, and quality of the response. The Supplier will also hold the corporate authority or county board and Consultant harmless of any financial obligations or liability that may arise as a result of the Program.

Supplier Selection Criteria

- Price per Ccf and corresponding terms;
- Natural Gas Supply Contract flexibility;
- Proof of financial solvency and investment grade credit rating;
- Quality of response to Request for Proposal;
- Program Marketing Plan and informational outreach;
- Municipal Aggregation Experience;
- Municipal Opt-Out Experience;
- Certified as a Competitive Retail Natural Gas Supplier by the PUCO;
- Compliant to Purchase of Receivables/Utility Consolidated Billing (“POR-CB Program”) facilitating LDC single billing to participants in the Program.
- Natural Gas Supply Contract meets the minimum requirements of the PUCO, and common commercial practice.
- Will provide assistance, if needed, by Consultant or corporate authority in filing the any reports required by the PUCO.

8.) Consolidated Billing and Credit/Default Procedures

LDC offers a purchase of receivables program with consolidated billing (POR-CB) for the benefit of retail customers and Supplier. This allows for a single bill, administered solely by LDC, wherein LDC will invoice the LDC regulated delivery charges and supply rate provided by the selected Supplier contained in the Natural Gas Supply Agreement.

The corporate authority or county board will utilize the POR-CB Program with its Municipal Aggregation to streamline the billing process, and eliminate the confusion of separate bills from LDC and the selected supplier.

Credit policies and procedures continue to be the responsibility of LDC and/or Supplier. The corporate authority or county board will not be responsible for late or non-payments on the parts of any of its residents or small businesses. LDC and/or Supplier billing practices should be consistent with all applicable guidelines issued by the PUCO. If there is a delinquent account, LDC and/or Supplier or their agent will send collection notices to the customer's mailing address of record for service charges rendered by LDC, following established collection policies regardless of whether the customer participates in the Program or not. In the case of a POR-CB Program, the billing method the Program will utilize, the Supplier's receivable becomes LDC's receivable and LDC will be responsible for those collection efforts under LDC's policy and requirements.

Customers will continue to receive their natural gas bill from LDC, will continue to call LDC for service-related issues, and will continue to pay LDC.

CUSTOMER INQUIRIES: LDC operates a call center to assist customers with inquiries and resolve billing issues. LDC has toll-free numbers to contact the call centers printed on natural gas account holders' bills.

9.) Request for Qualifications/Proposal-Summary

The Consultant will, on behalf of the corporate authority or county board governing body and residents, request qualifications from a number of licensed supplier in order to properly vet any potential bidders. To those suppliers deemed most qualified, a Request for Proposals ("RFP") will be issued, utilizing predetermined criteria based on technical specifications, bidder requirements, bidding processes, and contract documents, to select a single Retail Natural Gas Supplier ("Supplier"). The Consultant will evaluate the bids received and will recommend a single Supplier to serve as the natural gas supplier to all eligible residents and small businesses within the municipal limits.

The corporate authority or county board may grant authority to a representative of the corporate authority or county board to approve the Natural Gas Supply Agreement with the selected supplier on behalf of the corporate authority or county board.

10.) Pricing Methodology

Pricing Methodology: The corporate authority or county board intends to establish a price for the purchase of natural gas for the Program. This will be the Program Rate measured in price per per thousand cubic feet of gas (Mcf). The rate will reflect various lengths of terms, contractual benefits, and possible hold premiums (Supplier holds price offer to be bound in Natural Gas Supply Agreement open for a fixed period of time beyond the standard one day to allow for municipality to review before signing off on Natural Gas Supply Agreement).

If the daily market price quote is deemed acceptable by the Consultant, the Consultant will inform the corporate authority or county board of the price and pricing components and recommend acceptance. If accepted, the corporate authority or county board will affirm acceptance of the commodity price in writing to the selected supplier.

The supplier invited to bid will quote rates for the following natural gas supply mixes:

- Lowest Traditional Fixed Price – The lowest priced fixed natural gas supply available from a certified supplier using any minimum percentage of renewable energy consistent with Ohio law and/or PUCO regulation. Should the annually weighted LDC Standard Service Offer for the enrolled participants be less than the selected supplier’s retail natural gas price, Supplier will reserve the right to terminate service and return the Program participants to the LDC, or continue service at a rate equal to the LDC Standard Service Offer, inclusive of Municipal and Consultant Fees.
- Discount to tariff – a variable rate guaranteed to be a certain percentage below the LDC’s tariff rate for a specific term. Supplier shall provide an understandable description of the factors that will cause the price to vary (including any associated indices) and disclose how frequently the rate will change.

If the Supplier proposes to charge different rates to different rate classes within the aggregation (for example, a different price for residential and commercial customers), the Supplier shall disclose the applicable rate(s) to customers within each rate class.

11.) Program Education Initiative

Supplier shall maintain an educational program for the purpose of explaining the Program to eligible residents and small businesses. The Education Program will include updates, offer customer support during the term of the agreement, and provide information of where to Opt-Out of the Program, if a customer so desires.

Each residential and small business customer of LDC within the jurisdiction of the corporate authority or county board will receive a notification by mail explaining the Program, the procedure which must be

followed to Opt-Out of the Program, the fixed natural gas rate the municipality contracted for on behalf of participants in the Program, termination policies, and the deadline to return the Opt-Out letter.

The corporate authority or county board in partnership with Consultant, along with the selected supplier will develop an education initiative that will inform residents of the specifics of the program. The education initiative may contain, but is not limited to the following:

- Mailings
- Community Meetings
- Advertisements
- Program Website
- Toll-Free Information Line
- Informational Videos
- Calculators (web-based)

12.) Demand Management and Energy Efficiency Initiative

Reduced energy costs should in no way be considered a license for increased usage. For that reason, no plan is complete without balancing reduced supply cost for end-users with some method(s) for demand side management and reduction. PUCO offers a website which specifies each customer's Standard Choice Offer ("SCO").

The Consultant may work with the selected supplier to develop an "Energy Efficiency Program". The program may include resources for residential consumers regarding energy efficiency for their home. The corporate authority or county board will work with LDC to provide specific information about utility rebate programs.

13.) Natural Gas Supply Agreement

The corporate authority or county board will be presented with and have the option to execute a Natural Gas Supply Agreement ("Agreement") with the selected supplier.

Bids may contain various lengths of term. Upon recommendation of the consultant and at the discretion of the corporate authority or county board, the duration of any subsequent contract term will be determined.

The agreement shall include:

- The approved rate and the supply mix for the Program, and shall disclose all additional or ancillary fees.

- Requirements that all licenses and qualifications are maintained.
- Requirements that the Supplier manage the program under the Plan of Operation and Governance as approved and amended if need be.
- Agreement not to solicit or contract directly with eligible residents or small businesses in the Program for service or rates outside the aggregation
- Agreement not to use the customer data and information for any other marketing purposes.
- Agreement to indemnify and hold the corporate authority or county board and Consultant harmless from any claims, causes of action, damages, judgments, and financial obligations arising from the Program.
- Proof of insurance and performance security as the municipality deems necessary.
- Provision that the Supplier will assist the corporate authority or county board in developing a Program Education Initiative.

Termination of Service

- End of Term: The Natural Gas Supply Agreement with the Supplier will terminate upon its expiration.
- Early Termination: The corporate authority or county board will have the right to terminate the Natural Gas Supply Agreement prior to the expiration of the term in the event the Supplier commits any act of default. Acts of default include, but are not limited to the following:
 - Breach of confidentiality regarding customer information;
 - The disqualification of the Supplier to perform the services due to the lapse or revocation of any required license or certification;
 - The LDC's termination of its relationships with the Supplier;
 - Any act or omission that constitutes deception by affirmative statement or practice, omission, fraud, misrepresentation, or bad faith practice;
 - Billing in excess of the approved rates and charges;
 - Billing or attempting to collect any charge other than the approved Ccf rates and contractually approved charges;
 - Failure to perform at a minimum level of customer service required by the corporate authority or county board.
- Upon termination for any reason, the corporate authority or county board will notify the LDC to return the residents and small business accounts to the Default Tariff Service. Upon termination, the corporate authority or county board shall provide at least sixty (60) days written notice of termination to each account holder participating in the Program. If the agreement is not extended or renewed, participants will be notified as required by law and the supplier's rules of the PUCO in advance of the end of service. Participants will also be notified of their rights to select an alternate supplier and of their ability to return to LDC's Standard Service Offer upon termination.

Changes, Extension or Renewal of Service

The initial term of the agreement for natural gas supply service will provide service for the specified term beginning upon activation of services. If the Agreement is extended or renewed, Program participants will be notified as required by law and the rules of the PUCO as to any changes in rates or service conditions. At least every two years, all LDC customers in the municipal boundaries will be given an opportunity to opt into or out of the Program, and reasonable notice will be provided as required by law and PUCO rules. Participants will also be notified of their right to select an alternate supplier and of their ability to return to LDC's Standard Service Offer.

14.) Liability

The corporate authority or county board and Consultant shall not be liable, in any instance, to residents and small commercial retail customers for any claims arising from or due to provisions of municipal aggregation of natural gas. Any such claims should be solely directed to the selected supplier, pursuant to the Natural Gas Supply Agreement.

15.) Miscellaneous

The Plan of Operation and Governance may be impacted by forces outside the control of the corporate authority or county board. Those items may include the following:

- Amendments or changes to applicable Ohio law.
- Federal Energy Regulatory Commission (FERC) tariffs that may be enacted or amended;
- PUCO rules and regulations as may be enacted or amended;
- LDC tariffs as approved or amended periodically by the PUCO;
- Federal, state, and local laws;
- Rules, regulations, and orders approved or enacted by federal, state, or local regulatory agencies.

The Plan of Operation and Governance will be on file at the corporate authority or county board Administrative office.

Please call 937-498-2335 for a copy or to obtain additional information

Any natural gas customer, including any participant in the aforementioned Aggregation Program, may contact the Public Utilities Commission of Ohio (PUCO) for information, or to make a complaint against the Program, the SUPPLIER, or the LDC. The PUCO may be reached toll free at 1-800-686-7826 or for TTY (toll free) at 1-800-686-1570 from 8:00 a.m. to 5:00 p.m. weekdays, or at www.PUCO.ohio.gov.
